Michael *Gbeleyi*

ACTOR · MODEL · ROBOTIC PUPPETEER

London, UK · michaelgbeleyi@gmail.com · Instagram @michaelg7765

ABOUT ME

I'm a model and performer from London, and I want to train properly in acting and stage direction.

I have done robotic puppetry twice. In July 2026 I controlled a robot dog on stage in a play called ARGOS, at Senate House in London. I performed next to a professional actor, in front of about 250 people.

I study robotics at university and I animate characters, so I pay close attention to how people move. I want to bring that into my acting.

STAGE WORK

ARGOS · 2026

My role: I controlled the robot dog, Argos, live on stage.

Where: Senate House, London. It was the closing show of an international robotics conference (ICSR + Art 2026).

Director: Prof. George Rodosthenous. **Producer:** Dr Hooman Samani.

The story: Odysseus comes home after 20 years and only his dog recognises him. The dog never speaks, so all of its feeling came from the way I moved it.

MODELLING

2026: black-and-white street portraits in London

2025: studio test shots and casual colour shoots

2024: black suit studio shoot

EDUCATION

BSc Creative Robotics, University of the Arts London, 2024 – 2028. I'm in my second year.

BTEC Level 3 in Game Design, Havering Sixth Form College, 2024. Grade D*DD, the top grades.

What I want next: training in acting and stage direction.

SKILLS

Robotic puppetry: controlling a robot live on stage, in time with an actor.

Movement: I study how small gestures change what an audience feels.

Character animation: I bring 3D characters to life in Blender and Unity.

In front of the camera: studio and street photo shoots.

Speaking to groups: I taught coding classes.

Languages: English (first language), Yoruba (fluent), Mandarin (learning).

OTHER WORK

2026 – now: Founder of M3XI. Our slogan is “We are connected by design.” We make apps that connect people, and we build robot prototypes.

2025 – 2026: Coding teacher at Beta Generations.

2022 – now: Freelance web developer and 3D artist.
